Tools: Git, GitHub, VS Code, Postman, Chrome DevTools

Concepts: CRUD Operations, MVC Architecture, Middleware, Authentication, Authorization, Form Validation

Methodology: Agile (Scrum)

Professional Experience

Front-End Developer (Service-Based)

WhyDigit Systems Pvt Ltd, Bengaluru

Feb 2025 – Present

- Developed enterprise-level HRMS and Finance modules using React.js, Redux Toolkit, Material UI, and Tailwind CSS.
- Built complex and dynamic forms with validation using React Hook Form.
- Designed dashboards and reports with PDF and Excel export functionality.
- Integrated REST APIs using Axios and handled API response and error states.
- Collaborated with backend, QA, and product teams in an Agile (Scrum) environment.
- Used Git and GitHub for version control, code reviews, and team collaboration.

Intern – MERN Stack Developer

FeOS Technologies Pvt Ltd, Chennai

Sep 2024 – Jan 2025

- Developed full-stack modules using React.js, Node.js, Express.js, and MongoDB following MVC architecture.
- Designed and implemented RESTful APIs with CRUD operations.
- Integrated frontend components with backend services using Axios.
- Worked with MongoDB and Mongoose schemas for data modeling and validation.
- Assisted in implementing authentication and role-based access control.
- Tested APIs using Postman and followed Git-based version control practices.

Projects

Finance Management System (Enterprise Project)

React.js, Redux Toolkit, Material UI, Tailwind CSS, jsPDF, AutoTable

- Developed finance modules including Purchase Orders, Invoices, and Transactions for enterprise clients.
- Implemented dynamic GST, subtotal, and total calculations with accurate business logic.
- Managed global application state efficiently using Redux Toolkit.
- Generated PDF and Excel reports for invoices and transactions using jsPDF and AutoTable.
- Ensured responsive and user-friendly UI with Material UI and Tailwind CSS.

HRMS Application (Enterprise Project)

React.js, Redux Toolkit, Material UI, jsPDF

- Built Employee Reviews, Attendance, and Performance Evaluation modules.
- Implemented centralized state management and data flow using Redux Toolkit.
- Developed PDF export functionality for employee reports and performance summaries.
- Designed responsive user interface with Material UI for better UX.
- Collaborated with backend APIs to fetch and display employee data dynamically.

Education

B.Sc. Information Technology

Jamal Mohamed College, Trichy

2021 – 2024

Percentage: 82.46%

Key Subjects: Data Structures, DBMS, Web Technologies, Programming in JavaScript

Internships & Training

MERN Stack Developer Intern – FeOS Technologies Pvt Ltd, Chennai

Sep 2024 – Jan 2025

- Gained hands-on experience with HTML, CSS, JavaScript, Bootstrap, React.js, Redux Toolkit.
- Developed backend APIs using Node.js, Express.js, and MongoDB.
